

Hello!

We are the Kinning Park Complex.

Who are we?

The Kinning Park Complex is a community-owned space in the Southside of Glasgow that offers a diverse programme of free and low-cost events, classes and activities for all ages!

Our home is an old school building with a long history of education and activism. It is a place that has served its communities and been protected by its communities for over 100 years.

We are also home to a broad range of other community groups, organisations, and artists with offices and studios in our building.

Our weekly activities

We offer a pay-what-you-decide community meals programme every week.

- *Insert day*
- *Insert time*
- *Halal and vegan options available*

- *Halal and vegan options available*

Our meals often coincide with craft activities, games, film screenings and other recreational activities. Please speak to a member of staff about the most recent programme of activity.

Most weeks there will be other classes and events in the building run by external organisations and individuals, some of them will be free and some may have a cost to take part.

Hire our space

We have a variety of spaces available to hire for events, parties, meetings and community activity. Contact us for more information.

Our Membership and Volunteer opportunities

The Kinning Park Complex is working towards becoming a member-led organisation. If you are interested in volunteering with us or joining our membership, speak to a member of the team to discuss the skills you can offer and what learning opportunities you are interested in.

Support and Guidance

Where possible, we offer guidance if you are struggling with something and not sure where to go for support. This could be, for example, accessing a foodbank, asylum support, welfare support, educational and leisure activities or work and volunteer opportunities.

Accessibility and Inclusion

If there are any barriers to accessing our activities, we encourage you to contact us to talk about this. We can make any necessary adjustments and as a team have a broad spectrum of knowledge and experience in terms of accessibility and inclusion.

What We do

We are here to foster a space where you can meet, support each other, share skills and knowledge and organise activities and projects. We are a friendly and warm group of people with a range of experiences and passions. We hope to make everyone feel welcome and supported.

Community Café

We work closely with the KPCafé. You'll find us there to have conversations and share resources about other organisations and services.
